Care Information

The glass used in this product is tempered glass. Even though it is up to four times tougher than regular glass, it is not unbreakable. So it is important to bring the same care to tempered glass than for normal glass. Clean the glass using adequate products, intended for this type of material. Careless handling or use could create damages which may not be visible but it could cause the glass to spontaneously shatter. Avoid dropping objects on the glass and any other shocks. Avoid using sharp and/or hard objects in contact with the glass. Use coasters or placemats to help prolonging the life of your product.
